(57) Abstract :

ABSTRACT AN IMPROVED COMPOSITION AND PROCESS FOR PREPARATION OF BIODIESEL • The present invention provides an improved composition and process for preparation of biodiesel. Said present invention provides the use transesterification process for preparation of biodiesel that is more efficient, eco-friendly, high yield and yet cost effective. Said composition and process for preparation of biodiesel, uses lesser amount of alcohol which thereby became cost effective process. The present invention provides a lesser amount of catalyst thereby purification of biodiesel through washing is not required and the processing time is reduced hence consumed less time.
