**BRIDGING RESEARCH
AND INDUSTRY
CONCLAVE (BRIC)
2017**
Date: January 23rd, 2017
Venue: PDPU, Gandhinagar

INVITATION

Pandit Deendayal Petroleum University, in association with Gujarat Energy Development Agency (GEDA) with the vision of creating a pool of energy professionals, has taken the initiative to provide a knowledge sharing platform to discuss the recent issues and challenges faced by the solar industry. The dramatic changes in solar business environment and growing need of energy across the globe have pronounced the role of each value chain function. Focus needs to be drawn to the challenges, regulatory scenario and success drivers thus unveiling the investment opportunities. To gain and deliver more insights on the industry, we invite you to “BRIC Solar - 2017”.

THEME

BRIC Solar, hosted by Solar Research and Development Centre, is aimed at discussing about innovative Indian Solar Energy Sector. The theme of this BRIC Solar is to provide a bridging platform between industrial challenges and viable academic solutions. This brings BRIC Solar to born.

ABOUT SRDC

SRDC & Department of Solar Energy, PDPU are organizing 2nd BRIC Solar at PDPU, Gandhinagar, Gujarat. SRDC has strong linkages with industry on solar research and many of its post graduates have carried out their projects in industry like Adani Power Training & Research Institute (APTRI), Bergen & Topsun which are also the supporting partners of this event.

APTRI is center of research and consulting wing of Adani power with its HO at Ahmedabad. Bergen is the leading group providing solutions for large scale SPV & CST plants. Topsun has established itself in quality module manufacturing and is a leading EPC player.

“BRIC Solar provides a connective platform for knowledge sharing, business opportunities and sustainable development”

WHO SHOULD ATTEND

- Industrial Leaders: Promoters, Manufacturers, Financial Experts
- Government Leaders: Regulators and Policy makers
- International and domestic developers and institutional investors
- Entrepreneurs and Green Builders
- Energy Academicians
- Energy Consultants and Analysts
- Future Leaders: Students

SPEAKERS PROFILE

CEO / R&D Heads / Top decision makers from leading solar organizations from Indian Public / Private Sector. Top officials from Political Regulatory Authority Bodies such as Ministry of New and Renewable Energy (MNRE), Energy & Petrochemicals Department (EPD), Government of Gujarat (GoG) and other value chain partners. The academia shall be represented by Scientists and R&D personnel from the solar sector.

EVENTS ORGANIZED ALONGSIDE

A state/national level poster presentation competition is being organized as a part of BRIC Solar by Solar Research and Development Center (SRDC), PDPU on 23rd January, 2017 at Gandhinagar, Gujarat.

BENEFITS OF ATTENDING

This conclave presents a perfect networking opportunity for member's involved in different parts of value chain of solar energy sector. It also aims to serve as a knowledge disseminating experience for the participants and students. Its an exercise to have a better understanding of the nuances of solar energy sector from leading professionals and players in the industry.
