

MEDIA PARTNER

In order to put Gujarat on unconventional energy basket in India, GoG took an initiative of establishing a centre dedicated to research & development activities in the area of exploration and exploitation of geothermal energy. In this light, with the support of GoG, PDPU established Centre of Excellence for Geothermal Energy (CEGE) on 10th of October, 2013

ABOUT CEGE

Pandit Deendayal Petroleum University, was established under the Gujarat State Legislative Act 2007, in the capital city of Gujarat. The university, with its axiom "Reservoir of Intellect", offers programs to address the need for trained human resources in the domains of Science, Technology, Management, and Humanities. It intends to broaden the opportunities for students and professionals to develop core subject knowledge which is duly complemented by leadership training interventions, thereby helping the students to make a mark in the global arena. This objective is being further addressed through a number of specialized and well-planned undergraduate, post-graduate and doctoral programs as well as intensive research projects.

ABOUT THE CONFERENCE

Renewables are presently beginning to fulfill the steeping scenario of global energy demand. To overcome the same situation, many countries are bending towards renewable energy resources. United Nations, too issued a mandate for minimizing the usage of fossil fuels.

Geothermal Energy is a crucial aspect in the energy basket which provides a clean, bright and healthier form of energy at no extra cost to mother nature. Comprehending the same motives, Centre of Excellence for Geothermal Energy is elated to announce 4th International Geothermal Conference 2020. The objective is to bring together stalwarts of geothermal fraternity and examine the challenges lying ahead for harnessing and hybridization of Geothermal Energy with various forms of Renewable Energy.

AGENDA

Understanding the progress of geothermal energy in India and world .

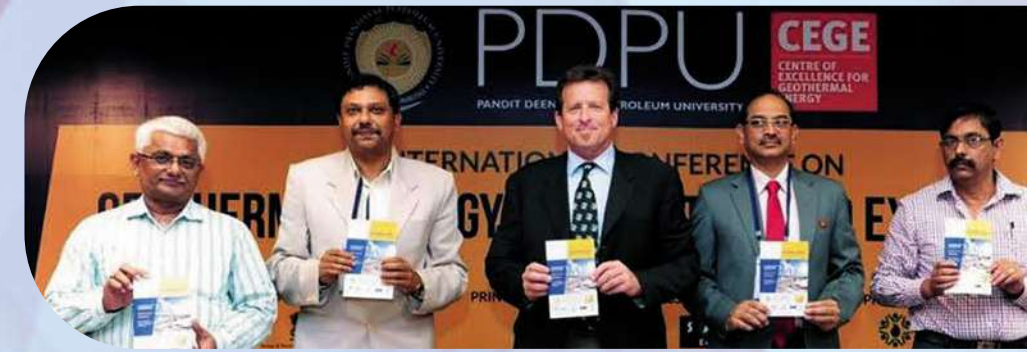

KEY TOPICS FOR THE CONFERENCE

- Exploration of geothermal energy in India and world
- Drilling of wells in geothermal prospects
- Harnessing of geothermal energy - low, medium and high enthalpy
- Geothermal power generation
- Geothermal resource estimation
- Uses of geothermal energy for direct & indirect applications
- Hybridization of geothermal energy with other renewables

PARTICIPANTS

Geothermal Power Developers	Industry Experts
Government officials	Geothermal Engineers
Explorationists	Reservoir Engineers
Research Scientists	Geophysicists

1st International Geothermal Conference

2nd International Geothermal Conference

3rd International Geothermal Conference

PATRON

Professor Anirbid Sircar
Head, CEGE & DG GERMI

It is a platform to discuss and debate best practices which can be instrumental in developing renewable energy sector
